

In order to allow anybody to list their item on the W5NOR website, the following must be read and accepted. Thanks and good luck. 73!

Rules and Regulations

All items listed must be ham radio related. Ham radio related refers to HF, VHF, UHF, and Digital Radios and parts, antennas and parts, ham radio manuals and instruction guides, analyzers, etc. Items such as tarps, chairs, vehicles, etc for “Field Day or related ham radio events” is not allowed. All items will be reviewed by the webmaster for approval to be posted on the website.

All items may include one (1) picture to be uploaded with your item(s). If you desire to sale more than one item separately, a picture is suggested for each item because they will be listed separately.

The seller must provide a short description of the item for sale to the webmaster. You are required to provide your name and an email address for contact from a possible buyer. It is also requested that a phone number be provided as well.

The seller must inform the webmaster within 24 hours that an item has been sold so it can be removed from the website.

Listings are only posted for approximately two (2) months at a time. If your item has not sold within that period, it will be removed from the website.

All South Canadian Amateur Radio Society members are given priority listing over those that are non-members. Additionally, non-club amateur radio operators may also post items on the website but your call sign must be provided for verification. Non-amateur radio individuals can also list amateur equipment as long as they have an amateur radio operator (whom does not have to be a club member) sponsor their sale. The contact information for both the non-amateur radio individual and the ham radio sponsor must be provided at the initial time of communication for a listing.

These rules and regulations are non-negotiable and will be strictly enforced

Good luck and 73!!!
