CENTRAL OKLAHOMA RADIO AMATEURS  
**COLLECTOR AND EMITTER**

50¢

SECOND CLASS MAIL  
POSTMASTER, SEE PAGE 2

Frances Harding, a close friend of CORA and wife of C&E editor Joe, WA5ZNF, passed away in early June after enjoying a full and active life.

Until the past several years both she and Joe enjoyed motorcycle riding, and until recently she was active as a service volunteer at the Tinker AFB hospital. And, of course, she was always a help in putting together the C&E.

We extend our deepest sympathy to her family.

With summer here a lot of us are planning to hit the road for a much deserved vacation. Don't ruin the fun by announcing your plans over the radio! Every now and then we read about hams who tell their friends their vacation plans, only to return home to find that their house has been burgled. After all, radio scanning is a hobby enjoyed by quite a few people, including, unfortunately, the bad guys.

You can avoid some of the potential thievery by not discussing your travel plans over the air, saving the highlights of your trip for your return. You can also ask your friends not to mention your absence over the ragchew nets--and do this by landline just to be extra safe.

You also stand a chance of having your car burgled while you are on the road. After all, motels and camp grounds are notoriously full of transients. A few months ago we had a talk at the MORI meeting titled "Some Alarming Ideas." Basically, the talk discussed several ways to rig your mobile radio to an alarm system in order to deter it from walking away.

Credit for the simplest alarm goes to KØIM1 who published the idea in QST several years ago. It had only one

part, a normally-closed push-button switch wired in parallel with the horn circuit. It was mounted to the dash in such a way that the radio kept the button depressed. Then, if anyone removed the radio, the switch would close, and the car's horn would blast away!

There are other, more elaborate ways to protect a radio, most involving an SCR in the circuit to fire off the alarm. Some of the circuits we covered fired off when the rig's wires were cut, others sounded the alarm when the wires were shorted together, and one that did both.

There were several ways to install the alarm and its power source inside the rig, on the theory that a thief wouldn't be caught dead walking off with a noise maker in his hands.

And there's at least one ham who wired his rig to his car's alarm so that it transmits whenever there's an intrusion (he monitors the same frequency on a handie talkie he keeps in his motel room).

What else is happening on the crime scene? MORI found out when the club met at the OKC Emergency Operations Center in May. The EOC is home for the area 911 Emergency Phone system. It was a very interesting evening, watching the 911 operators at work and seeing how well the computer did it's thing.

It was fascinating to hear the phone ring and almost simultaneously seeing the phone number and address of the caller displayed on the terminal. At one point an operator broke protocol a little by answering "911; What's happening Circle K?" (It was shoplifting).

One of our guests asked if there was any way to tell if anyone had made an emergency call from his telephone. The operator typed in his number, the screen responded with his address, and his slate was clean. The computer, however, does remember all previous 911 calls from any phone (the Circle K store

had a whole tally of previous calls).

We asked how the 911 system would respond to a call from an amateur repeater. Our guide, Sgt. Milton White, said that the computer would recognize such a call, and would flag the operator that the caller was probably calling from a mobile radio. He explained that cellular phone calls worked the same way, and that in most cases the operator would ask for a location anyway.

MORI has had a 911 system of its own that's been around longer than the telephone system's. MORI members have had access to most area police departments thanks to the ACC repeater controllers and their abbreviated commands.

If you haven't been on a MORI repeater for a while, then you've been missing a lot of the traffic going back and forth between here and Tulsa, Vinita, Enid, and Joplin and Springfield, Mo. The club's 444.1 repeater is linked to two other repeaters here in OKC, to four in Tulsa, and to a repeater in each of the other QTHs.

Here in the city the link is with the 146.34/94 machine and the 222.5/224.1 repeater. Enid's 147.15 and Tulsa's 449.875 repeaters are tied in permanently, with the other cities available by tone access.

The 34/94 link is almost always open, but those times when too much noise clutters up the system the repeater may require use of the standard 4A subaudible tone to open it.

MORI is now a hub for the rest of the region, and our technical committee would be interested in hearing from other areas that might like to tie in.

By the way, MORI was the first club to open a 220-band repeater in the OKC area. The link it offers to VHF and UHF operation for the Novice class user is a definite improvement over an otherwise underused portion of our spectrum.

KAY COUNTY  
AMATEUR RADIO KLUB

### May Meeting Notes

We had another good turnout for our last meeting of the season. Officers were elected, here they are:

Pres-John Spoon WB5YSX  
V.P.-Marsh Pronneke WA5UBO  
Sec/Tres-Gary Robison WB5WMD

We're all looking forward to their leadership next year.

A committee was set up to plan the fall Hamfest/VE Exam session here in Kay County. Mike Morgan and Mike Morris were both elected to that committee.

As usual things are pretty slow in the summer time, there are no Public Service events until this fall. I'll keep you informed.

### C.D. Exercise for 1990

Here's a report on our 1990 Civil Defense exercise, it was known as CIVEX 90 this year.

CIVEX '90 KAY COUNTY, OK WED. MAY 9, 1990 Participating hams this year were W5TXF & WA5UBO at the Kay County EOC, Newkirk, W5ZWM & KS4W at the Ponca City EOC; and, WB0QIR & KD5FX at KD5FX's home QTH, (relay to state EOC). There were 12 messages handled this year, the quickest was in and out of the relay station in just 2 minutes, the slowest took 13 minutes and the average time to forward a message was just 7.6 minutes.

Frequencies/bands used: Contact was made with W5LOW, the state EOC station on packet radio a little after 8 am, then contact was made on the 147.03 repeater in Edmond. 3900 kHz was used from about 8:30 to 9 am, by then 40 meters was better and 7275 khz was used to pass all the traffic from 9:15 till 11. The packet path was no longer usable after about 10 a.m.

Here's a copy of the thank you we got from the State CD Office, K5VVD is one of the state CD employees. (This message came in over packet radio)

Msg# Size to From Date Time  
5 164 KD5FX W5LOW 11-May-90  
08:43:02

Dave, got your report on the exercise. Tnx to you and please pass our tnx to all there who supported the exercise. Good job! I will be calling you. Larry...K5VVD.

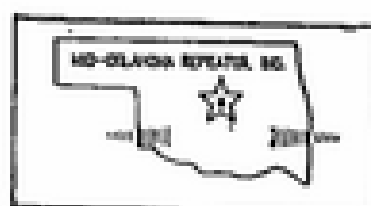

Also, we got a nice write-up in the Kay County CD newsletter called 'CD Daily Doin's'. They mention that 'Communications through RACES were handled with a minimum of problems.' I think both the CD offices we interacted with were impressed. This is an annual event that is usually held in the spring, if you would like to help out next year, please contact me or N5LPZ. You'll need to get your RACES membership before the exercise, so don't wait too late.

That's it for this month, see you at our next meeting in September! Don't forget the Monday night nets at 9P.M. on 146.97. Dave KD5FX.

### TS-430S W/FM

I have a very nice Kenwood TS-430S for sale. It has a general coverage 150 kHz TO 30 MHz receiver, FM module and 500 Hz CW filter. It will transmit on all the ham bands including the WARC bands. In fact it will xmit anywhere it will receive! It has LSB, USB, CW, AM and FM modes. It also has 100 watts output and comes with the standard Kenwood hand mic. I'll ship ups anywhere in the U.S. Price is reasonable, but not cheap (\$700 obo). This makes a very good mobile rig, but this one has lived indoors as a base unit all it's life. Call me collect at-405-762-8616 for more info. If you're on packet i can be reached at WB5RZX in OKC.

P.S This makes a great rig for beginners on a budget!!! Thanks, Dave, KD5FX

Stranger things have happened, but not since Q. R. Zedd blasted off for Neptune--N5BBQ now sports an AE suffix.

Jim, our vice prez, won his 20-wpm certificate a year ago, and almost let it expire. When he finally dug it out again he discovered he had only 13 days to use it. Somehow he found a test session and was able to pass the written exam--just in the nick of time. Congradulations, Jim, on your accomplishment.

Ham Holiday is the next big local event, and we hope to see you there. If we don't cross paths, then drop in on one of our meetings (the first Tuesday of the month). Listen to one of our repeaters for time and place.

de KD5DL KEEL" We'll keel that guy on 'my' frequency.

### ACARC MEETING FOR JUNE, 1990

The meeting was called to order by president Ted, NY5W, at 19:34 local. As usual, a round of self introductons followed. There were 21 members and guests present. Tom, K5LDI, gave the CORA report. The registrations are starting to pour in for Ham Holiday so don't be the last one on your block to send your registration in. Bob, W5HXL, has acquired all the bingo prizes. The banquet will be at a Chinese restaurant in the vicinity of 36th and Lincoln. Under new business, there are plans for a 220 repeater and a 440 repeater to be added to the two meter repeater facility. Our club will be moving to the old primate building later this year as the current bldg must be renovated (remove the asbestos etc). We should get two 60 foot towers at the new site. The high winds we have been experciencing lately have played havoc with the beams and associated cables. Then when the two meter rig was turned on, the smoke got out of something inside so that it won't work. So, the club station is going to require some work to get it back in shape. There was no interest from our club members in work for field day. The meeting adjourned for coffee at 20:15.

bill k5kdr

DECEIT: Deceit of de pants is worn out from sitting in de shack.

CANE: "Cane Chew Hear Me Calling. Caroline?" calling CQ CQ Caroline.

BEER: Beer with me.

BAWDY: Bawdy beautiful is the shape of some YLs.

AVENUE: "I avenue transceiver" said the happy ham.

## CIMARRON

GREETINGS TO ALL FROM CARA, GEM OF THE GLOSSY MESA'S, SAND-HILLS AND BLACKJACKS! I might add...door way to no mans land! The last good repeater, most of the time, before you get to the Panhandle. I have to add...most of the time...because old faithful 145.45 is presently given to fits of squalling and discontent. It is on a 400 ft tower southwest of Fairview, and it is in dire need of a good tower climber. A good, CHEAP, tower climber! Volunteers....call Denny, WK5V...(405) 764-3599 or Leo WZ5H at (405) 886-2998.

It has been so long since I have had to make this deadline that I must have loads of news to report. NOT SO! I can say...harvest is essentially over and yields were good this year. The banks should get on a little better footing this year. Today, also, is a continuation of a two week hot spell, we could use a good rain, and the fishing at Canton Lake is good to fair!

Ham news, tho, is scarce! CARA's May tenth meeting was well attended. Secretary Denny Painton WK5V, counted twelve of CARA's finest...namely... Ruth Simpson WX5Y, Nadine Painton N5PMH, Vern Brewer KA5SZD, Bob Haigler N5KNK, Terry McColl N5MLT, Ray Barnes AB5Z, Robert Baker N5MPH, President Leo Peil WZ5H, Curt Briggs KB5NBO, Betty Day KA5RTW, Jack Day NN5Z plus Denny himself.

The workday was reported a success. The portable tower is ready for Field Day and no one left the hamburger fry hungry. Leo and Bob was given authority to order a tri-bander for the tower...hopefully in time for Field Day, which by the way is June 23rd/24.

The June 14th. meeting was not quite so well attended. WZ5H being AWOL, Vern KA5SZD chaired the meeting. Those present were Curt Briggs KB5NBO, Jack Day NN5Z, Terry McColl N5MLT, Steve Schoonmaker KF5SW, Ray Barnes AB5Z, Ruth Simpson WX5Y, Betty Day KA5RTW, Denny Painton WK5V and his XYL Nadine N5PMH.

FIELD DAY was the subject of the evening...final plans were made. The place...the usual field, north of the Paintons home at Orion.

The tri-bander for the portable tower has been ordered...reportedly a Mosley, but has not yet arrived. Alternate antennas were discussed. The club will furnish the hamburgers and buns...all other delicacies to be furnished by attending members. Hopefully there will be a few freezers of ice cream to top off what has always been a super cook-out!

Thats about it for this report! Next meeting....July twelfth...at the WX5Y Playhouse. BE THERE OR BE SQUARE!!!!

COME ONE!

## HAM HOLIDAY BANQUET

The annual banquet will be held at the Pepper Steak Chinese Restaurant at 3845 N. Lincoln Blvd. You can have Chinese or regular American food. More details next month.

## CORA TO CHANGE

The next, July, meeting of CORA will be held at the Lincoln Plaza Convention Center. That is July 24th.

The August meeting will be announced.

## VITAL MEETING OF CORA SECRETARIES/TREASURERS

All CORA Secretaries and/or Treasurers are invited to a meeting at Ham Holiday on Saturday at 4:00 pm to assure that Tom Mangham (CORA Treasurer), Joe Harding (C&E Editor) and said Secretaries/Treasurers all speak the same language. It will be a short meeting, but necessary.

## VE TESTING MOVES

DISREGARD THE CALENDAR this month. The time and date are OK, but they are moving to the Salvation Army facility at North 50th and Penn. This is due to the lack of air conditioning, and heat this winter, at the old Red Cross Building.

ALSO FROM PAST OVERMODULATIONS...

This drawing always brings a grin to my face, so-o-o, again many thanks to Gil Rudolph N6BFF. Hope it brings a grin for you too!

Must be postmarked by July 24, 1990

I wish to apologize for not getting an article written for the month of May. I also am sorry to say I did not get a May issue of the Collector and Emitter.

The May dinner at Red Rock park was enjoyed by 26 people. During the meeting El Reno invited the club there for the June 10th meeting. The big matter at the meeting was field day operations. President K5GGL George appointed WO5B Edgar and N5IKN Tom to work out the details. For thirty or so years Wheat Straw field day has been held up on the Howell hill with K5GBN Johnny making all of them. This year field day will be held at Okarche, OK in the park located in the S.W. part of town.

The July 8th meeting will be held in Okarche at the home of Le Roy and Jan Kuehn at 326 S. Main, Okarche. Just turn the corner West and park. The meeting will be in the patio. Jan has invited everyone.

#### GEORGE MASCHINO

K5GGL George was born in Oklahoma during the early dust bowl days. In November of 1942 his family moved to Okarche. He saw his first radio working. It fascinated him very much though it was hard for him to understand how all the frequencies could be in such a little box. Perhaps then was the start of his interest in electronics. George has been interested in radios ever since, figuring how they worked and how they were made. Shortly George got interested in amateur radio.

While in school George made several crystal radios, he says some worked better than others. He learned how to tune some up on short wave and others on the broadcast bands. Making several tube receivers, most of them on the short wave bands, George started studying code by himself.

Before getting out of high school George started taking a correspondence course in radio and TV repair. Two weeks after graduating high school George received his diploma for radio and TV repair. With no job available he went to Stillwater to attend Oklahoma A&M College, as it was named in those years. Meeting a group called the Cap, George studied code with them. That turned out to be more of a bull session, and George did not go back. George then went to the college station WSYJ but nobody seemed to be interested in talking to him since he was not licensed yet. George was still interested; he did not get discouraged enough to give up.

George found a part time job working on radios at a music store. Business was a little slower in those days and there was not enough work for the person already working there so George quit in less than a year, finding a job on campus showing audio visual pictures. George says it was a part time job and did not pay much, but he learned a lot

and it was interesting work. The college found out George had run movie projectors while in high school at Okarche. They checked him out, then he ran most of the projectors at the auditorium when the projectionist was alone. The last year he was there all he did was repair work; it worked out OK because it was interesting and he learned a lot.

Learning about Bus Blum's radio school George went there with Willis Luber. The first night there Bus sent George some code, then listened to George send code. Bus said "send off after your license, you are ready." George says as far as he knows he was the only person to go through Bus's school in one night.

Bus's school is now known as the Wheat Straw school. He still teaches school when he can get the students. If anyone is interested contact him. George took the test for license, passed, and it was sent off. Well before the license came back, George went into the Army, close to two weeks before the ticket came. There was no chance to work the air as a novice.

After Boot camp George got to come home on leave. He quickly built himself his first transmitter, then later got a Hallicrafter transmitter. Coming home for Christmas furlough he made his most memorable contact with a young man who had polio. He did not have the strength to turn the radio on or work the band switch. He could turn up and down the band and work the key. The qso went for two hours. George got another furlough later and contacted him again, then went up to visit him in person at Ponca City.

Getting out of the Army in 1959, George came home putting in his own radio shop there. About three months later he heard about the Wheat Straw A.R.C.; he joined the club and has been with them ever since. George has worked the bands 75 through 2 meters. George holds an advance and first class license.

George has other hobbies such as his computer (no games, he does his own programming), and in past years has made tickets etc. for Ham Holidays. He has had the CORA members and addresses in his computer. George also belongs to the singles square dance club. Having over 1000 names and addresses of members in his computer, George stays busy. This year he is president of the Wheat Straw A.R.C.. George keeps a busy life.

A word from the older George, when you reach 75 years old, settle down and take time out and go see the girls. Ha! The rest is yet to come, good luck George.

"73" WA5PFR Ralph

#### FRANCES MARIE HARDING

I never expected to write this column, I figured that Frances would outlive me by at least 10 years, that someone would write my obituary and she would go on being a Red Cross Volunteer which she had been doing for 28 years - but that was not the case.

After some 9 months of suffering from Lou Gehrig's disease and a host of other mishaps, Frances went to sleep the first of June to suffer no more.

She was a fine wife, mother, grandmother, homemaker and a lot of other things, and she will be missed by everyone.

For 175 issues, that's 16 years, she did her part in folding, inserting, sticking a label on the C&E, and when I was sick she even saw that it was mailed. That was until arthritis prevented her from helping.

It would take a lot of space to tell of the places she followed me during 20 years in the Air Force, from the Japanese attack on Wheeler Field before they went on to Pearl Harbor, to Offut A.F.B. in Nebraska, always assisting me, gosh how I miss her.

It was a wonderful 57 years of marriage. Nothing will be the same without her.

### Minutes of May Meeting

Meeting was called to order at 12:00 p.m. by President Jack, WB5ZKZ, with 22 members and guests present. Fred, W5NL, gave the treasurer's report for Ellard, W5KE. There was no old or new business. Steve, W5VCJ, reported on his six meter activity. On March 7 he worked VR6PR on Pitcairn Island (the island settled by mutineers of the Bounty).

Meeting adjourned at 12:06 and, with some help from Bob, W5HXL, who brought the video monitor, I showed a video tape made at Dayton Hamvention, 1990. Joe, K5JB, Sec'y

### Minutes of June Meeting

Meeting was called to order at 12:04 p.m. by President Jack, WB5ZKZ, with 28 members and guests present. Jack introduced out guests. Ellard, W5KE, gave the treasurer's report and he reported that the VHF Club now has 49 paid-up members. There was no old or new business. Fred, W5NL; Joe, N6CL; and Ellard, W5KE, advised the group of some activities associated with CORA Ham Holiday.

Joe, WA5ZNF, reported the sad news that his wife Frances passed away June 1. The group expressed its sympathy to Joe.

It was announced that Al, AD5U, is in Deaconess hospital getting an ulcer fixed.

Joe, N6CL, said a few words about his Section Manager activities, and how he appreciated the vote of confidence that permitted him to continue in that position. He is going to attempt to hit as many field day sites as possible and will be running six meters, mobile to possibly help some scores.

Meeting was adjourned at 12:13 and the group sat back to enjoy Bob, W5HXL's nutrition lecture, presented with photographic evidence of some of the finer nutritional centers he has discovered. Joe, K5JB, Sec'y

### Use of the "TO" Field on a BBS

The following is provided by K2GKK:

Keep the following categories in mind when you either SEND a bulletin, OR look for info on a BBS.

| TO:     | COVERS:                                          |
|---------|--------------------------------------------------|
| 4SALE   | Items for sale/trade. Do NOT include price!      |
| WANTED  | EQUIPMENT wanted.                                |
| HELP    | ALL requests for help, info, questions, etc.     |
| MODS    | Modifications to gear or requests for same.      |
| CLASS   | Ham (or other) Class announcements               |
| EXAMS   | Ham (or other) exam info, dates, etc.            |
| CLUB    | Club events, meetings, announcements, etc.       |
| HAMFEST | Hamfest/Swapmeet announcements.                  |
| MAP     | ALL maps                                         |
| MAPKEY  | Keys to maps.                                    |
| NETWRK  | Announcements about the Packet Network.          |
| LIST    | ALL Lists (PBBSs, frequencies, repeaters, etc.). |
| SOFT    | Software related msgs.                           |
| BEACON  | Beacon lists                                     |
| LLBBS   | Msgs related to land-line BBSs.                  |
| ALL     | Any not listed above.                            |

Additionally, the "TO" fields used by SOME operators who enter "common" bulletins are:

|      |                                            |
|------|--------------------------------------------|
| SAT  | All satellite related material (ARRL/etc.) |
| PROP | Propagation reports (ARRL/etc.)            |
| DX   | DX reports (ARRL/etc.)                     |
| QST  | ARRL & CRRL, hltns, not covered above.     |

Specific brands or models of equipment can be targeted, such as "MFJ", "AEA", "KAM", "PACCOM", "C64", "C128", "AMIGA", "PC", etc.

For example, you need to find a schematic for FT767. At BBS prompt,

1. Enter: SB WANTED @ XXBBS
2. The BBS asks for Subj:
3. Enter: Want FT767 Schematic
3. The BBS asks for Msg:
4. You enter your text.
5. Enter: "/EX" or "CTRL-Z"

NOTE: Be sure to type Carriage Return

after each command.

Please, if we work together, BBSs will be easier to use and LANs will be less congested! 73, Chuck, WA1HIE

I edited the above to fit into C&E size format. BBS users in the Oklahoma City area can locate a specific bulletin type by using "L@" commands. I.E., L@ ARLB, L@ AMSAT, etc., as well as the L> command to locate bulletins addressed as described by WA1HIE above. Use commands L> SAT, L> 4SALE, L> MODS, L> AEA, etc.

Use of these techniques should make your visits to your local BBS more productive and less time-consuming. 73 de Mac, K2GKK

### RF Burns

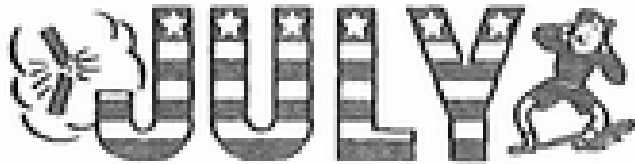

Dave, WB5FWE, sent me a message about getting a nasty RF burn to his hand. No, it wasn't from an amateur radio transmitter, but from a microwave oven. It seems that the door interlock failed and when he opened the door to check on some food he was thawing the magnetron kept running and gave Dave a nasty dose of RF.

RF burns are much worse than other kinds of burns because they do their damage deep within tissue. Dave said that on his oven it is normal for the fan to run for a period after the timer cuts off the magnetron so he did not notice anything unusual after opening the door.

We should all be aware of the danger of stray RF from our transmitters, particularly in the microwave region, but don't take that microwave oven for granted. It can be very dangerous. Hope you heal quickly, Dave. Joe, K5JB

### Alert on PC Tools Version 6.0

Mac, K2GKK, forwarded messages from WA6VQP about a problem he experienced with version 6.0 of PC Tools, an MS-DOS utility. He claimed that the DISKFIX function screwed up his disk worse than it already was. I checked with the software types at the office and they said they had not had any problem with version 6.0's DISKFIX and that they had used it numerous times. The timid should back-up before using DISKFIX Joe, K5JB

| SUNDAY                                                  | MONDAY                                                      | TUESDAY                                | WEDNESDAY                                                                                     | THURSDAY                     | FRIDAY                                                   | SATURDAY               |

Hi . . . KB5FCF, Joel here on schedule with the news of EARS.

First off lets take care of old business. We have had a good number of severe weather nets this year and may have a few more. We are always in need of weather spotters and also Mike, KB5DIX needs help at the EOC during these nets. Please call Mike at 348-6535 for more information.

Next . . . Phil, NSHIP has agreed to teach a computer class for those who are interested. If you would like to learn more about personal computers please contact Phil at 789-0681.

This July edition of the C&C should come out just before the Fourth of July. EARS is once again helping with the Edmond Fourth of July Parade. You can call me at 348-1614 to volunteer for this.

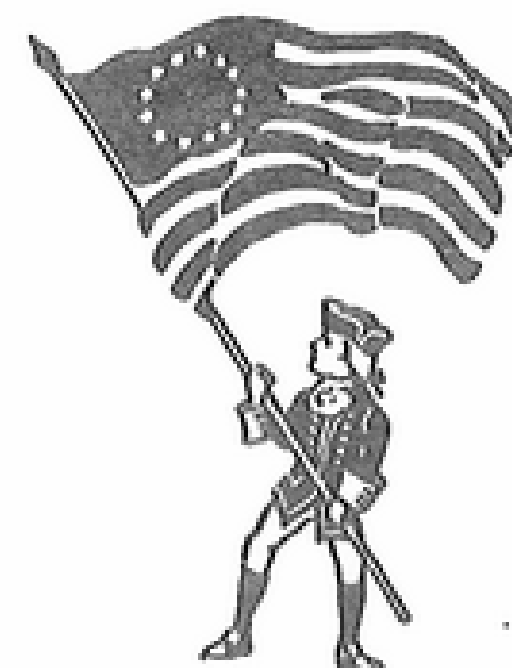

Ham Holiday & State ARRL Convention 1990 will be August 3rd, 4th and 5th at the Lincoln Plaza Convention Center. Now you probably know about it already, that is why I wasn't here last month. But you may not know that EARS is again this year helping at the registration desk. Call me is you can help with this.

Well . . . I know we all had fun at Field Day but I can't give any details yet since I am writing this before. Next month I will mention the highlights of our effort.

The July Board meeting will be July 9th at the Edmond EOC at 7:00 pm. The July business meeting will be July 15 at 2:00 pm. Tune into the net for the location of this meeting as I don't have one yet.

Last thing, I apologize for the bad spelling in the last article. I didn't run spellcheck on it and it was a little raw. I'll see you on the air. TU & 73

KB5FCF, Joel
